

**Jon W. Martz**  
Vice President, Government Relations

February 20, 2015

The Honorable Candice Miller (R-MI)  
320 Cannon House Office Building  
Washington, DC 20515  
Attn: Jeff Orzechowski

Dear Congresswoman Miller,

vRide, the nation's largest vanpool provider would like to express its support and gratitude to you for the introduction of HR 910, the "Vehicle-to-Infrastructure Safety Technology Investment Flexibility Act of 2015."

Our nation's infrastructure is in jeopardy. We have unending needs and limited resources. In order to stay competitive, we must invest our transportation funds wisely. Technology will play a critical role in addressing our transportation needs. Vehicle-to-Infrastructure (V2I) technology helps make our roads less congested, safer and more efficient. HR 910 presents a common sense solution that will help to define V2I technology and clarify eligibility within the Federal-Aid Highway programs.

vRide has more than thirty-five years' experience in providing commuters with vanpools and mobility options. Over the last several years, we have made significant investments in integrating the latest technologies. These investments improve our service and provide a seamless and safe experience for our customers. Legislation like HR 910 can only help to expand and proliferate technologies that we can use to make our service safer and more efficient.

I look forward to working with you on this legislation and other initiatives that will improve our transportation system. If you have any questions, please feel free to contact me at 248-597-3519 or via email at [jon.martz@vride.com](mailto:jon.martz@vride.com)

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jon Martz'.
